## PROFESSIONAL SUMMARY

Finance & Investment graduate (Georgia State University Joint Program with Cairo University, 2024) and Financial Officer at MCDR — Egypt's central securities depository — with FMVA® and CBCA® designations and CFA® Level I candidacy. Builder of three live institutional-grade financial engines (M&A, valuation, 3-statement modeling) calibrated to Egyptian capital markets law and validated across 285+ benchmark calculations. Targeting analyst roles in investment banking, financial advisory, transaction services, and equity research across Egypt, the GCC, and international markets.

## EDUCATION

**Georgia State University Joint Program with Cairo University** **Giza, Egypt**  
*Bachelor of Finance and Investment, Major in Finance & Investment* **2020 – 2024**

- **Graduation Project:** Authored “*Green Finance & Sustainable Capital Markets*” — analyzed ESG-linked instruments and sustainable financing frameworks applicable to emerging-market capital raises and EGX issuance.
- **Relevant Coursework:** Corporate Finance, Financial Statement Analysis, Investments, Capital Markets, Financial Modeling & Valuation, and Econometrics.

## PROFESSIONAL EXPERIENCE

**MCDR – Misr for Central Clearing, Depository and Registry** **Cairo, Egypt**  
*Financial Officer* **November 2024 – Present**  
*Egypt's central securities depository (CSD) and post-trade infrastructure operator for the Egyptian Exchange (EGX), regulated by FRA and CBE.*

- Built Python- and Excel-based financial models with scenario analysis, sensitivity tables, and stress testing across DCF, LBO, merger, and accretion/dilution frameworks — replicating sell-side IB analyst workflows used in pitchbook and fairness-opinion preparation.
- Prepared and analyzed standalone financial statements under EAS (Egyptian Accounting Standards) and IFRS, isolating value drivers and KPIs directly applicable to financial due diligence, Quality of Earnings analysis, valuation engagements, and IPO-readiness assessments.
- Executed multi-entity reconciliations and internal-controls reviews across institutional ledgers, building the analytical rigor and forensic mindset transferable to transaction services, dispute, restructuring, and buy/sell-side due diligence workstreams.
- Monitored institutional investment portfolios against EGX, CBE, and FRA regulatory thresholds, gaining deep fluency in the Egyptian capital markets framework and post-trade infrastructure critical to cross-border deal execution and institutional equity coverage.
- Partnered with external auditors through full-cycle compliance reviews under EAS- and IFRS-aligned disclosure practices relevant to capital markets transactions, listing readiness, and investor reporting.

**UFC GYM** **Sheikh Zayed, Giza**  
*Senior Customer Service & Sales Representative* **July 2022 – July 2023**

- Drove consultative sales and high-touch retention for a premium member base while mentoring junior representatives — building the client communication, stakeholder-management, and team-collaboration skills directly relevant to advisory and coverage work.

## SELECTED FINANCIAL ENGINEERING PROJECTS

**WOLF Valuation Engine — Sell-Side & Equity Research Valuation Suite** **February 2026**

- Engineered multi-method valuation platform integrating DCF, Comparable Company Analysis, DDM, Altman Z-Score, Piotroski F-Score, DuPont, and EVA with automated PDF/Excel deliverable export; validated 202+ calculation outputs against benchmark case (WACC 25.84%, blended target 55.72 EGP/share) within ±0.01 EGP precision.

**VALOR M&A Engine — Full-Stack M&A Advisory Platform** **March 2026**

- Architected institutional-grade M&A platform with 7 integrated modules — merger modeling, LBO, accretion/dilution, synergy quantification, and fairness opinion — calibrated to Egyptian capital markets law (CBE rates, FRA & ECA thresholds, EAS No. 19, Stamp Tax Law No. 111/1980); achieved 83/83 automated financial test pass rate.

**3-Statement Financial Model Engine — Integrated Financial Modeling Platform** **February 2026**

- Constructed fully-linked 5-year IFRS/EAS-compliant 3-statement model across Base / Optimistic / Conservative scenarios with circular-reference iterative solver achieving complete balance-sheet reconciliation; rebuilt interest-rate architecture to period-indexed schedule reflecting Egyptian corporate borrowing rates (29.5% on 2024 debt, 24.5% on 2025) — directly transferable to LBO structuring and sell-side debt modeling.

## CERTIFICATIONS & LICENSES
