PROFESSIONAL SUMMARY

Finance & Investment professional with hands-on experience in Egypt's capital markets infrastructure at MCDR — the central securities depository and registry. Skilled in financial reporting, regulatory adherence, and quantitative analysis. FRA & Cairo University–accredited in non-banking financial supervision. FMVA® & CBCA® certified with expertise in financial modeling, equity valuation, and data analytics. Seeking to contribute to capital markets regulation and securities market oversight at FRA or EGX.

EDUCATION

Georgia State University Joint Program with Cairo University <i>Bachelor of Finance and Investment, Major in Finance & Investment</i>	Giza 2020 – 2024
Graduation Project: “Green Finance & Sustainable Capital Markets”	

EXPERIENCE

MCDR – Misr for Central Clearing, Depository and Registry <i>Financial Officer</i>	Cairo November 2024 – Present
Portfolio Compliance: Monitored investment activities to ensure strict adherence to capital markets regulations, Egyptian securities legislation, and internal investment policies — supporting market integrity and investor protection. Financial Reporting: Prepared standalone financial statements per applicable accounting standards, reinforcing transparency and disclosure quality within a systemically important market infrastructure entity. SAP ERP Implementation: Co-led migration of financial data and integration of workflows, enhancing reporting accuracy, audit trails, and regulatory data integrity. Reconciliation & Internal Controls: Conducted regular bank reconciliations and resolved discrepancies, maintaining rigorous internal controls aligned with non-banking financial sector oversight requirements. Data Analysis: Applied Python and advanced Excel for historical ratio analysis, financial trend modeling, and data analytics to support evidence-based reporting and risk assessment. Audit Support: Partnered with external auditors to ensure full regulatory compliance and streamline review processes.	
UFC GYM <i>Senior Customer Service & Sales Representative</i>	Sheikh Zayed, Giza July 2022 – July 2023

PROJECTS

VALOR M&A Engine - Full-Stack M&A Analysis Platform	March 2026
Developed a full-stack M&A analysis engine with 7 integrated modules covering merger modeling, LBO analysis, synergy quantification, and fairness opinions — calibrated to Egyptian law, CBE rates, and FRA regulatory requirements.	
WOLF Valuation Engine - Full-Stack Financial Analysis Platform	February 2026
Developed a full-stack equity valuation platform featuring DCF analysis, Monte Carlo simulations, and Comparable Company Analysis (CCA) with automated PDF/Excel reporting, replicating institutional-grade equity research methodology.	
3-Statement Financial Model Engine - Full-Stack Financial Modeling Platform	February 2026
Developed a fully-linked 3-statement financial model (Income Statement, Balance Sheet, Cash Flow) projecting 5 years across 3 scenarios (Base / Optimistic / Conservative) with a circular-reference iterative solver ensuring full balance sheet reconciliation and cash flow integrity.	

COURSES AND CERTIFICATES
