PROFESSIONAL SUMMARY

Finance & Investment professional at MCDR (Egypt's central securities depository) with hands-on experience in capital markets, financial modeling, and deal structuring. FMVA®-certified and CFA Level 1 Candidate; built three live institutional-grade M&A, valuation, and financial modeling platforms calibrated to EGX, CBE, and FRA frameworks. Targeting investment banking — M&A advisory, ECM, or DCM — across Egypt and the GCC.

EDUCATION

Georgia State University Joint Program with Cairo University	Giza
<i>Bachelor of Finance and Investment, Major in Finance & Investment</i>	2020 – 2024
• Graduation Project: “Green Finance & Sustainable Capital Markets”	

EXPERIENCE

MCDR – Misr for Central Clearing, Depository and Registry	Cairo
<i>Financial Officer</i>	November 2024 – Present
• Capital Markets & Regulatory Intelligence: Monitored investment portfolios against EGX, CBE, and FRA requirements — building fluency in the Egyptian capital markets framework critical to cross-border deal execution.	
• Financial Statement Analysis: Prepared and analyzed standalone financial statements, identifying key value drivers and performance metrics applicable to M&A due diligence and equity research.	
• Due Diligence & Internal Controls: Conducted rigorous financial reconciliations and controls reviews, building analytical discipline applicable to buy-side and sell-side due diligence.	
• Quantitative Modeling & Valuation: Applied Python and advanced Excel for financial modeling, scenario analysis, sensitivity tables, and stress testing — replicating core IB analytical workflows.	
• Audit Support: Partnered with external auditors ensuring full compliance with applicable standards, gaining exposure to financial disclosure practices relevant to capital markets transactions.	

UFC GYM	Sheikh Zayed, Giza
<i>Senior Customer Service & Sales Representative</i>	July 2022 – July 2023

PROJECTS

VALOR M&A Engine — Full-Stack M&A Analysis Platform	March 2026
• Built an M&A analysis engine with 7 integrated modules covering merger modeling, LBO, accretion/dilution, synergy quantification, and fairness opinions — calibrated to Egyptian law, CBE rates, and FRA requirements . 83/83 automated tests passing.	
WOLF Valuation Engine — Full-Stack Financial Analysis Platform	February 2026
• Built a sell-side valuation platform featuring DCF, Comparable Company Analysis, DDM, Altman Z-Score, Piotroski F-Score, DuPont, and EVA with automated PDF/Excel export. 202+ verified calculation outputs .	
3-Statement Financial Model Engine — Full-Stack Financial Modeling Platform	February 2026
• Developed a fully-linked 3-statement model projecting 5 years across 3 scenarios (Base / Optimistic / Conservative) with a circular-reference iterative solver ensuring full balance sheet reconciliation — directly applicable to IB deal modeling and LBO structuring.
